SPRING IS A GREAT TIME TO BUY EARTH DAY ENVIRONMENTAL Action Kits!

The Environmental Action Kit

In the next few weeks, why not round out your "spring and summer cleaning" with some great energy saving devices in the Earth Day Environmental Action Kits, provided by Guelph Hydro Electric Systems Inc?

Each Action Kit contains 4 Compact Fluorescent Light Bulbs (CFL's) that last up to 10 times longer than a regular bulb. Each CFL can save you about \$50 per bulb over its lifetime; that's \$200 in savings for the 4 bulbs in the kit! Plus, you get a Knowledge and Power Sheet with 10 great tips for saving energy around the home - easily and effectively.

EACH KIT IS ONLY \$10 including GST!

THAT'S POWER WORTH HAVING!

You can purchase kits from:

Students from local public and separate school boards who will soon be touring the city;

•
The Guelph Public Library Central Branch (ask at the Registration Desk)

•
The University of Guelph Student Services Centre

•
Guelph Hydro's office at 395 Southgate Drive.

EACH KIT IS ONLY \$10

And, when you buy, some of the purchase price goes back to community charities.

IT'S A WIN-WIN ALL ROUND!

Help to reduce energy consumption.

•
Support the environment and reduce greenhouse gases.

•
Contribute to local charities.

•
Can it get any better than that?

JUST \$10 GIVES YOU THE POWER. THANK YOU!
