

OPERATION power down

Power down on **August 14** as Guelph competes against Ontario municipalities to see who can conserve the most energy.

**ARE YOU UP
FOR THE
CHALLENGE?**

Check out some of these workplace energy saving tips

- Turn off your computer and equipment at the end of the day.
- Whenever possible, make sure your computer and monitor are set to go to power saver mode.
- Reduce lighting. Natural light saves on energy and is easier on the eyes. Open curtains and blinds to bring more natural light into your work area.
- Encourage decision-makers to purchase energy-efficient office equipment, lights and appliances.
- Take the stairs instead of the elevator.
- Dress comfortably for the weather. Adjust your layers before adjusting the thermostat.

TAKE IT OUTSIDE

Operation Power Down Barbecue

Power down your office and join downtown employees and businesses for a barbecue lunch catered by *Appetizingly Yours Events & Catering*

Operation Power Down Barbecue

Thursday, August 14
11 a.m. to 2 p.m.
