

**The Power Savings Blitz program offers up to \$1,000 in FREE energy efficient retrofits for the small commercial sector.**

### Change Your Lights

Your local electricity distributors, in cooperation with the Ontario Power Authority (OPA) would like to encourage small businesses in the Kitchener, Waterloo, Guelph, Cambridge and Stratford areas to use energy efficient measures in their facilities. By participating in the Power Savings Blitz, your company could be eligible for up to **\$1,000** in **FREE** lighting and electric water heater retrofits.

### Save Money and Energy

Besides receiving free products and installation valued at up to \$1,000, your business could also save money over the long term through the improved energy efficiency of new lighting systems and other applicable measures.

### Help the Environment

The energy saved by installing more efficient lighting systems not only saves you money, it also helps the environment by reducing air pollution and conserving non-renewable resources used in power production.

### Recycle!

Let us take care of recycling the removed fluorescent lamps for you. Since fluorescent lights do contain small amounts of mercury, we want to ensure that they don't end up in a landfill site and are decommissioned in an environmentally friendly manner. All lamps replaced will be responsibly recycled through the *Take Back The Light* program.

### Who's Eligible?

The Power Savings Blitz program is being offered to:

- Customers of Cambridge and North Dumfries Hydro Inc, Festival Hydro Inc., Guelph Hydro Electric Systems Inc., Kitchener-Wilmot Hydro Inc. and Waterloo North Hydro Inc.
- Small business customers with average monthly demand consumption of less than 50kW.
- Businesses that do not fall under the category of food service retail (including butchers, restaurants, convenience stores, grocers, etc).
